Past Ghosts

“This made me fall in love a little”

“This melts my soul”

Molly has always felt a connection through nature and aspires to create an original sound that is reminiscent of a walk outside. Whether you love running through seas of grass or you prefer the wooded forest, her music can connect you to your favorite places even when busy in a metropolis. Her new single “Past Ghosts” will touch your heart and soul. Just close your eyes and let her haunting voice and guitar voicings transport you.
